Alexandria Gazette

THURSDAY EVENING, OCT JBEE 7.

A SUBMARINE VOLCANO -Commander Huntington, of the United States steamer Alert, in a report to the Navy Department just recrived, says that while on a surreying cruise in the Pacific, south of Forteizio and the Bovic Islands, on approaching the island of Sun Alessandro, his attention was called to a strange appearance on the water, apparently ten miles distant. A volume of vapor was rising as though some vessel was blowing off steam. This was followed by an appearance of breakers, and while some of the officer- were discussing the probable cause, some thinking it was the blow ing and breaching of a school of whales, the question was definitely settled by the upheavel of an immense black mass.

As the ship arroached the submarine volcano

the black masses thrown up were distinguished as mud and sales. The upheavale were ac compelied by duli reports, like those from sub marine mines, and by an odor of sulphur. Several days were spectim making the reconnoissance. Commander Huntington says he did not think it prudent to suprosch the voicano in the Alert, but a boat was lowered and pulled within A roof or island is in process of formation.

Soundings were obtained in trom five to twenty-nine fathoms. The water was full of asnes and mud, and some of this and one specimen of the bottom were brought on board. The volcano bears north, 44 degrees west, distant three miles from the brought on the southwest and of from the landing place on the southwest end of the island. At night flames were noticed issuing from the valoano The report of Commander hunt ington has been referred to Captain DeKraf, in charge of the hydrographic section of the Buresu of Navigation, and the change will be made on the charts.
